QUALITY AND FOOD SAFETY POLICY OF CELLER MASROIG

Celler Masroig has as its primary objective, within its business model, to achieve the highest level in wine production. This is mainly based on three pillars: the members as a link to the land and wine culture, the staff as transmitters of this food safety policy, and finally, the facilities as a fundamental element to produce mistelas, vermouths, rancid wines and white, red and rosé wines in the necessary volumes, qualities, and risk prevention. Consequently, the winery aims to achieve customer satisfaction and trust, always ensuring the Quality and safety of its products, in a manner appropriate to the organization's purpose and context.

For this reason, it has been decided to implement a Management System based on the UNE-EN ISO 22000:2018 Standard.

The Quality and Food Safety Policy is specified in the following points:

- Responsibility to ensure food safety and consumer health, and to have adequate communication means to ensure the exchange of information with all stakeholders in the food chain.
- Review and update the food safety management system to unify the Quality, production, and distribution of safe foods, providing a reference framework to establish and review the objectives of the food safety management system appropriately.
- Commitment to communicate our Policy to the consumers of our products, the company's staff, and, in general, to all interested parties.
- Establish and promote a renewed participatory business philosophy and teamwork that integrates and commits everyone to Quality and Food Safety management and continuous improvement.
- Ensure that our products meet our customers' needs, complying with all applicable food safety requirements, including legal, regulatory, and customer-specific requirements.
- Provide sufficient resources to ensure the safe and hygienic handling of wine.
- Promote the culture of Food Safety by increasing awareness and improving worker behavior.

Celler Masroig is committed to maintaining a quality management system in accordance with this policy and will ensure its compliance.
